

# About Good vs Evil

This book was written to highlight the on-going battle between GOOD (God) and EVIL (Satan). In the book I show how God in the first century AD enabled Christians to overcome an EVIL empire and establish the worldwide Christian church.

EVIL (Satan) is tyrannical. Ruling through FEAR, forcing subjects to obey for survival. They eventually learn that survival is not assured by obedience and seek safety elsewhere.

GOOD (God) is not tyrannical. Followers are free and choose GOOD over EVIL because God's special characteristics guarantee followers of success in overcoming Satan's evil.

1. **Omnipotence** is always able to overcome EVIL.
2. **Omnipresence** is always with followers.
3. **Omniscience** is knowing the outcomes beforehand.
4. **Omnibenevolence** is always acting in the best interest.

These character guarantee that God is the only safety from Satan's EVIL.
